TERMS OF PAYMENT

All charges stated herein are net and due and payable when rendered. In the event the current monthly bill is not paid by the due date of the bill, the consumer's service will be subject to be discontinued and may be subject to penalty charges.

DETERMINATION OF BILLING DEMAND

The billing demand shall be the maximum integrated fifteen (15) minute demand measured during the month for which the bill is rendered as indicated or recorded by a demand meter.

POWER FACTOR ADJUSTMENT

The consumer agrees to maintain a unity power factor as nearly as practicable. The Cooperative reserves the right to measure such power factor at any time. When the meter monthly power factor of the customer's power requirements is less than 90 percent, the Cooperative may correct the integrated demand in kilowatts for that month by multiplying by 90 percent and dividing by the metered power factor in percent for that month.

WHOLESALE POWER COST ADJUSTMENT - WPCA

The cooperative rates shall be adjusted to compensate for changes in the Cooperative's cost of wholesale power. The rates shall be increased or decreased by 0.1 mill (\$0.0001) per KWH for each 0.1 mill (\$0.0001) or major fraction thereof by which the Cooperative's total average cost of purchased power per KWH for the month of calculation exceeds or is less than 86.0 mills (\$0.0860) per KWH or such base amount as established by resolution of the Cooperative's Board of Trustees. The Cooperative's total average cost of purchased power per KWH shall be adjusted based on the annual average system line losses (the loss ratio) for the past twelve (12) months.

MINIMUM MONTHLY CHARGE

The minimum monthly charge shall be the greater of:

1. The Basic Facility Charge.
2. A charge of \$1.50 per KVA of installed transformer capacity (3Ø only).
3. The monthly minimum charge as established in the Agreement for Electric Service (contract) between the Cooperative and the consumer.

ON-PEAK ENERGY PERIODS FOR ALL TIME-OF-DAY RATES

On-peak energy shall be defined as energy consumed during daily periods including weekends and holidays as follows:

SUMMER SEASON:

April through October 3:00 P.M. through 7:00 P.M.

WINTER SEASON:

November through March 6:00 A.M. through 9:00 A.M.

AGREEMENT FOR ELECTRIC SERVICE

Each consumer may be required to enter into an Agreement for Electric Service (contract) to purchase power from the Cooperative. The terms of the Agreement for Electric Service (contract) will be determined by the Cooperative based on cost factors and the consumer's requirements.

AVAILABILITY OF SERVICE

Available in all territory served by the Cooperative, in accordance with the Cooperative's established Service Rules and Regulations.

NOTICE

All rate information shown is summarized. In order to obtain complete approved rate information about any electric rate offered by Tri-County Electric Cooperative, Inc., please refer to the complete rate schedules, which are available upon request from your local cooperative office.

TAX ADJUSTMENTS

The amounts computed under the stated monthly charges, as adjusted by the application of the Wholesale Power Cost Adjustment, shall be subject to any applicable taxes, assessments, fees, or surcharges legally imposed by governmental authority.
